A strong ownership mentality and highly knowledgeable team ensure that your business is handled quickly and correctly. The person who answers your call will service your request, or find the person who can, without passing your call along like a traditional call center.

Your claims will be handled by a team that has achieved some of the best results in the industry. Through comprehensive investigation of all losses and a focus on directing care, injured workers receive the care they need while keeping claim costs to a minimum. You will be able to utilize a large network of doctors, medical providers, registered nurse case managers and pharmacies. 24/7 claims reporting and a self-service portal allow customers and agents to file a claim, find a check or get adjuster information at any time.
